EXPERIENCE

Full-Stack Web Developer

CareerFoundry, Bootcamp | July 2023 - July 2024

- Became proficient in modern technologies such as JavaScript (ES6), HTML5, CSS3, and frameworks like React
- Built and deployed full-stack apps with RESTful APIs, databases, and backend tech like Node.js and Express
- Applied Agile methodologies to projects, while enhancing problem-solving and project management skills
- Delivered complete projects, focusing on code quality, UX/UI, responsive design, and Accessibility (WCAG 2.2)
- Translated technical concepts into user-friendly documentation, enabling clearer product understanding for users

Account Manager - eCommerce & Logistics

ShipMonk | June 2020 - September 2022

- Acted as the primary liaison between accounts, developers, and leadership to streamline logistics and operations
- Trained SMBs on inventory management software and eCommerce platforms, improving efficiency and satisfaction
- Leveraged Salesforce, Asana, and Slack for internal communication, project coordination, and task management
- Anticipated account needs by identifying weaknesses and opportunities, proactively addressing potential issues
- Managed tasks across inventory management, planning, fulfillment, software integration, and technical support

Scheduling Agent

Power Home Remodeling Group | May 2019 - June 2020

- Scheduled a high volume of sales appointments by fielding calls (75+ daily) and qualifying leads
- Gathered and managed data entry in a proprietary database, ensuring pipeline accuracy and organization
- Demonstrated strong communication and customer service skills in a high-volume call center
- Worked closely with Inside Sales and Marketing, gaining insights into our products and sales processes/techniques
- Exhibited strong multitasking abilities and consistently exceeded KPIs, resulting in weekly bonuses
